

Moder Patshala opened my eyes.

My name is Fariha Zarine Sultana. I am in 7th grade at Penn Alexander School. I came to America in April 2011. After five months I was admitted to a school in September. When I was admitted, I did not know any English. I did not understand my teachers and classmates' speech. I did not understand my homework and I did not know how to do home work. I failed every exam. I felt shy and bad. My ESL teacher rang Zaker aunty (Najneen Kabita) to discuss about

me. Aunty told me a lot of important things and she told me to come to the Moderpatshala. I started to come Moderpatshala. Here I saw a lot of students come and take help to complete their homework. Now I am a regular student of Moderpatshala. I am also taking help to complete my home work. Now I feel better because I try to do my homework myself and day by day I am doing well. And my exam result also better than before. If I face any problem my teacher rings Zaker aunty and they solve the problem. I feel proud and happy to be a Moderpatshala's student. I want to be a teacher because I believe, I have faced a lot of problems and solved. If I become a teacher I can help Bangladeshi American students.

Thanks a lot Zaker aunty and uncle. Thanks to all uncle and brother of Moderpatshala who always help me. I ask everybody to make dua for me.

Fariha Z. Sultana, 7th Grade,
Penn Alexander School
